FACILITY INFORMATION

- See [https://www.udsmapper.org/knowledge-base.cfm](https://www.udsmapper.org/knowledge-base.cfm) for the most current data source dates.
- Hospital and RHC locations come from CMS, so there may be some facilities on the UDS Mapper that no longer exist.
- RHCs in the Facility and Point HPSAs list have undergone an additional process to prove that they accept sliding fee scales (to ensure that people can receive care regardless of their ability to pay).
- Local knowledge should supplement and overrule what you may see in your area on the UDS Mapper.
HEALTH RELATED FACILITY LOCATIONS AVAILABLE IN THE UDS MAPPER

- Point location of health related facilities
  - HCP awardee and look-alike administrative sites
  - HCP awardee and look-alike service delivery sites
  - Rural Health Clinics
  - NHSC sites
  - Facility and Point HPSAs
  - Hospitals
  - Veterans Health Administration sites
  - Housing and Urban Development public housing sites

- MAP for MAT facilities
  - Substance Abuse and Mental Health Facilities
  - Opioid Treatment Programs
  - DATA Waived Providers
  - Health Centers with a DATA Waived Provider
  - HRSA Substance Use Disorder Program Awardees
LIMITATIONS

▪ Types of health related facilities that can be displayed in the UDS Mapper are limited to those for which there are national datasets
  • The UDS Mapper does not include any state-specific data sets, for example

▪ There may be other providers, like free clinics, that also serve as safety-net providers; however, to our knowledge there is no comprehensive national data set for these other providers
HOW TO OPEN THE EXPLORE HEALTH RELATED FACILITIES TOOL

▪ Click on the **Explore Health Related Facilities** tool icon (looks like a cross) in the Tool Box in the upper right corner of the map

▪ If you only see a blue bar with a few tool buttons, click the **white, downward-pointing arrow** to reveal the tools
HOW TO MAP FACILITY LOCATIONS (1)

- Near the bottom of the Explore Service Area tool, click the left-hand side checkboxes to add health center locations to the map.
- The checkboxes to the right will turn on Information Cards that appear as you move your mouse across the health centers and provide additional information about that location.
- Click the special card deck icon to the right of Health Center Administrative Locations to show additional UDS data.
In the **Explore Health Related Facilities** tool you can turn on other types of organizations.

The Information Cards for these facilities are on by default but they only appear if you click on a particular facility.
HEALTH CENTER ADMINISTRATIVE LOCATIONS (1)

- Found in the Explore Service Area tool
- Source: HRSA Data Warehouse
- Large dots (awardees) and triangles (look-alikes)
- Information Card includes name, address, funding type, Patient Centered Medical Home (PCMH) status, and Electronic Health Record (EHR) status
HEALTH CENTER ADMINISTRATIVE LOCATIONS (2)

Information Cards in the Card Deck provide data on quality, patient characteristics, costs, and services from the UDS Report.

MISNAMED, MISPLACED, OR CLOSED LOCATIONS

- Health center name, address, operation schedule, and funding data come directly from the HRSA Data Warehouse
  - Any errors in these data should be corrected in the health center’s Electronic Handbook profile
  - These changes go to the HRSA Data Warehouse and then, during regular updates, into the UDS Mapper

- Occasionally, health centers are misplaced on the map
  - This occurs when unusual addresses cause HRSA’s geocoding system to incorrectly locate the site
  - If you notice a location error that concerns you, please inform the health center’s Bureau of Primary Health Care Project Officer and the HRSA Data Warehouse
**ADDING LOCATIONS TO YOUR MAP**

- Not all types of health related facilities are represented in the UDS Mapper

- You also may find a location that you know is closed, relocated, or new:
  - Add points using **Drawing** Tools or **Map My Data**
  - Add labels to name facilities and make notations
  - See the specific How Tos for these tools in the **Tutorials & Resources** section of the website
If you have selected ZIP Code Tabulation Area(s) on your map and at least one type of health related facility, you can generate a report that includes a map of your selected area and sites, as well as a list (most with addresses) of those sites.

Click **Generate Report** and then **View Report** at the bottom of the Explore Health Related Facilities tool.
Adjust your map and then Print
Proceed to the next lesson to continue learning how to use the UDS Mapper
